

Above left, counter-clockwise: *Alcyonium glomeratum*, *Gymnangium montagui*, *Caryophyllia smithii*, *Aurelia aurita* and *Urticina felina* photos by Mark Woombs.

Is it a Coelenterate, Cnidarian or Ctenophore? A close up look at corals, sea anemones, jellyfish and comb jellies.

By Mark Woombs (Lancashire MCS)

Date: Wednesday 11th February 2026

Time: 19:30 to 21:00

Location: Lancaster Maritime Museum

£4 donation to Lancashire MCS requested

Everybody Welcome
